Credit Recommendations

Credit Rating	5
Risk	Low Risk
Maximum Monthly Credit Guide	EUR 5XX.000,00

Rating Explanation

The UK rating system ranges from 1, indicating a high risk to 5, the lowest risk. A rating of 8 indicates an unclassified risk (risk unknown), used on brand new companies as an example. A rating of 9 is used for companies, which are either in Receivership, Liquidation, and Dissolution or have ceased trading for some other reason.

The financial figures in the current credit report are presented in a standardised financial report format based on IFRS. This report format was designed together with local certified public accountants to better serve information purposes and to make a direct comparison across countries easier. Because of this, the financial figures given in the report do not necessarily

reflect the original financial reporting layout or reporting currency, which also implies that the figures in the standardised financial report format do not necessarily always add up.

The company is obliged by law to publish its financial statements.

The balance sheet data are from official sources.

The (official) balance sheet for 20XX includes mistakes in data structure or incorrect data.
