APPENDIX

Definition of Credit Rating

Credit Rating	Credit Status	Definition
AAA	Highest	The company has exceptionally strong capacity for timely payment of financial commitments.
AA	Very High	The company has very strong capacity to meet its financial commitments but carries a higher risk than in the AAA category.
A	High	The company has strong capacity to meet its financial commitments, but has less stability than companies in higher rated categories.
BBB	Good	The company has adequate capacity to meet financial commitments, but expected to have less stability in the future than companies in higher rated categories.
BB	Above Average	The company is expected to be vulnerable to adverse changes in circumstances and economic conditions, but has capacity to meet its financial commitments at present.
B	Average	The company's stability is expected to be impaired by adverse changes in circumstances and economic conditions, but has capacity to meet its financial commitments at present.
CCC	Below Average	The company's capacity for meeting financial commitments is solely reliant upon sustained, favorable business or economic conditions.
CC	Poor	The company manages to operate at present, but is vulnerable to nonpayment, posing high default risk.
C	Very Poor	The company is highly vulnerable to nonpayment, posing very high default risk.
D	Default	The company defaulted or is facing impending default on its financial obligations.
NR	Not-Rated	The company's information is not sufficient for credit rating purposes.

APPENDIX

Definition of Cash Flow Rating

Credit Rating	Credit Status	Definition
CR1	Very High	The company has exceptionally strong capacity and stability for generation of cash flow.
CR2	High	The company has strong capacity and stability to generate cash flow but carries a higher risk than companies in the CR1 category.
CR3	Above Average	The company's capacity to generate cash flow is expected to be vulnerable to adverse change in circumstances and economic conditions, but has better capacity than companies in the CR4 category.
CR4	Average	The company's capacity to generate cash flow is expected to be impaired by adverse change in circumstances and economic conditions, but has capacity to generate cash flow at present.
CR5	Below Average	The company's capacity to generate cash flow is lower or the generate amount is smaller than total borrowings, which also means that the cash solvency is lower than average.
CR6	Poor	The company's capacity to generate cash flow is very low or the generate amount is very small than total borrowings, which also means that the company has some problem in cash solvency.
NF	Exclusion from Rating	Financial statements lack the credibility or are incomplete. (ex. Statements of appropriation of retained earnings)
NR	Not-Rated	As of the recent fiscal year-end, cash flow less than two years is calculated.
