This bank was a member of the SAMPLE Group, which was owned by Mr. XX Seky Soeryadjaya, the oldest son of Mr. XXX Soeryadjaya. At the time, subject's ownership had been taken over by several prominent business groups in the country, including the SAMPLE Group, the SAMPLE Group, the SAMPLE Group, the SAMPLE Group and others. The business is very influenced by economic crisis that hit Indonesia in mid 19XX that made Indonesian Rupiah to be depreciated against US Dollar and other foreign currencies. Automotive sector was badly influenced at that time since the majority of its components were still imported. This condition forced some companies in this industry stop their operations. However, there is indication that the sales will sharply decrease in this 20XX due to the weakening customer's purchasing power after the hike of fuel price in 20XX.

Basically, subject and its subsidiaries' operation keeps increasing since 20XX to 20XX, yet it declined in 20XX. However, subject is capable to survive since it has acquired wide marketing network and some potential customers.
