### TDB Trends Research (Nationwide, Research & Summary for October 2022)

# Domestic economy improved for the third straight month

 $\sim$  With the yen at its lowest level in 32 years, tourism-related demand is picking up, supported by National Travel Discount Program. $\sim$ 

(Companies researched: 26,752; Valid responses: 11,632; Response rate: 43.5%; Survey start date: May 2002)

# < Trends in October 2022: Tendency toward improvement >

The economic diffusion index (DI) in October 2022 was 42.6, up 0.7 points from the previous month in its third consecutive month of improvement. It has regained and exceeded its pre-pandemic level. The domestic economy showed a tendency toward improvement for the third straight month with rising demand for personal services.

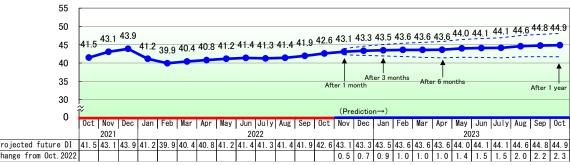

#### < Future outlook: Continued trend toward gradual improvement >

Service consumption and demand for DX are expected to expand, and the outlook is toward gradual improvement. e-mail: keiki@mail.tdb.co.jp

By industry: Improved in eight industries. Tourism-related demand improved greatly with the start of National Travel Discount Program.

By size: Businesses of all scales saw their first improvement in two months, and the return of foot traffic is driving personal consumption.

By region: Improvement was seen in all ten regions for the first time in a year. Tourism-related demand is giving a boost to regional economies.

The economic forecast DI is calculated using the Forecast Combination method of the results of the ARIMA model and the structural equation model.

\*Business Confidence (current, in 3 months, in 6 months, in 1 year)

\*Business Conditions (sales, purchasing and selling unit price, inventory, capacity utilization ratio, number of employees, overtime work hours)

# 3. Research Period and Methodology

Internet-based survey conducted Oct 18 – 31 2022

## The explanation of the Economic Diffusion Index

# **Research Purpose/Researched Terms**

TDB Economic Trend Research (started from May 2002) is a monthly statistical survey conducted for over 26,000 nationwide corporations on their general business activities including the current condition and future outlook of the industry business performance and operating climate. The primary purpose of such a survey is to assess the current state of Japan's economy.

# **Selection of the Subject Corporations**

Companies of all sizes in all domestic industries are eligible to participate in the survey.

#### **DI Calculation**

The DI (Diffusion Index) is calculated by multiplying the number of responses for each assessment category by the number given in parentheses in the table below, to a seven-level assessment rated by companies.

Selection category	Extremely good	good	fairly good	neither good nor bad	fairly bad	bad	very bad
points	6	5	4	3	2	1	0
number of responses for each category	N <sub>6</sub>	$N_5$	N <sub>4</sub>	N <sub>3</sub>	N <sub>2</sub>	$N_1$	$N_0$

Economic DI

$$= \frac{\text{Total of (Points for each category} \times \text{Number of responses for each category)}}{\text{Number of valid responses } N} \times \frac{1}{6} \times 100$$

$$\equiv \frac{\sum_{i=0}^{6} i \times N_i}{N} \times \frac{1}{6} \times 100$$

An economic DI of 50 is <u>the point separating good and bad</u>, so a DI over 50 means "good," and below 50 means "bad." (The numbers are rounded off to one decimal place.) No weight is given according to a company's size, and calculations are made on the basis of "one company, one vote."

#### Size Classification

Industry	Large Firms	Small to Medium-Sized Firms (Micro Firms included)	Micro Firms
Manufacturing and	Capital: More than 300 million yen	Capital: Below 300 million yen	
Other Industries*	and	or	No. of Employee: Below 20
	No. of Employee: Over 300	No. of Employee: Below 300	
Wholesale Trade	Capital: More than 100 million yen	Capital: Below 100 million yen	
	and	or	No. of Employee: Below 5
	No. of Employee: Over 100	No. of Employee: Below 100	
Retail Trade	Capital: More than 50 million yen	Capital: Below 50 million yen	
	and	or	No. of Employee: Below 5
	No. of Employee: Over 50	No. of Employee: Below 50	
Service**	Capital: More than 50 million yen	Capital: Below 50 million yen	
	and	or	No. of Employee: Below 5
	No. of Employee: Over 100	No. of Employee: Below 100	

Note1: Large Firms refer to companies that rank in the top 3% in terms of sales volume according to the type of business, among small to midium-sized corporations excluding micro firms, which are defined in Small and Medium Enterprises Basic Act.

Note2: Small to Medium-Sized Firms refer to companies that rank in the bottom 50% in terms of sales volume according to the type of business, among those not categorized as small to midium-sized corporations in Small to Medium-Sized Enterprises Basic Act.
